PROFILE

Second-year Computer Science undergraduate at VIT Chennai with hands-on experience in AI-assisted frontend prototyping, end-to-end platform QA, and Python-SQL application development. Combines strong software fundamentals with product thinking, translating complex requirements and stakeholder feedback into polished, user-focused digital experiences.

EDUCATION

Vellore Institute of Technology (VIT), Chennai

2025 - 2029

B.Tech in Computer Science and Engineering (Core)

Relevant Coursework: Data Structures and Algorithms, Object-Oriented Programming, Database Management Systems, Operating Systems, Cloud Infrastructure and Architecture

TECHNICAL SKILLS

Programming: Python, C, C++, Java, SQL

Web (working knowledge): HTML, CSS, JavaScript (JS), TypeScript, Next.js, Tailwind CSS

Database: MySQL, Oracle SQL, SQLite

Tools & Platforms: Git, GitHub, VS Code, MySQL Workbench, n8n, Vercel

Concepts: Data Structures, OOP, DBMS, responsive UI development, functional testing

EXPERIENCE

RSN One / BuildX - Frontend Developer Intern

June 2026 - Present

- Contribute to AI-assisted frontend ideation and prototyping for a premium lifestyle platform, shaping landing-page, AI concierge, and interface directions.
- Build and refine responsive HTML email templates and standalone UI concepts, turning brand requirements and stakeholder feedback into polished iterations.
- Completed end-to-end QA across customer, supplier, and admin portals; documented 30 issues across severity levels and communicated findings clearly.

PROJECTS

Personalized Task Manager

Python | MySQL

- Built a Python-MySQL task-management application with authentication, CRUD operations, status tracking, and persistent storage.
- Added search by task name or date, deadline alerts, sorting, and automatic overdue-task detection.

Emergency Ambulance Route Optimizer

C++ | Graphs | DSA

- Modelled locations and roads as a weighted graph and applied shortest-path concepts to identify an efficient route between emergency locations.

Personal Portfolio Website

Web Development | Vercel

- Built and deployed a responsive portfolio presenting technical interests, experience, and selected work through a concise, story-led interface.

LEADERSHIP

Everyone's Tomorrow, Hyrowah Technologies - Student Ambassador (Selected)

July 2026

- Selected to represent the student innovation showcase at VIT Chennai and coordinate campus outreach.
